

THE **PATTERN** DRAFTER

2-Day Pattern Drafting & Sewing Workshop

With Maria Boncaldo inventor of 'THE PATTERN DRAFTER'

Would you like to learn how to make patterns for dresses, tops and pants that fit you like a glove?

Are you tired of spending hours adjusting patterns only to find they still don't fit?

Then why not come along to a 2-day pattern-drafting & sewing workshop, where you will learn how to make patterns in YOUR measurements the quick and easy way, and then sew a garment for yourself or others, using the pattern you've made.

On the first day you will make a dress/sleeve/collar pattern, or pants pattern or kids pattern, depending on the workshop that you choose, and then be shown how to modify the pattern into your chosen design.

On the second day, you will use the pattern that you've made; to cut out and sew a garment in your chosen fabric, with guided step-by-step sewing instructions.

Pattern Drafting has never been easier to do; and you don't need any previous experience to do this workshop.

This is a great way to learn the tricks of the trade, giving you the confidence to sew for yourself and even others. Positions are limited so don't delay.
